

Mobility-omh Android Apps Installation Guide

Step 1: Download and Install Mobility

In the Google Play Store, search for *Mobility-omh* and select the version of the application by small data lab.

Accept the permissions, download, and install Mobility.

Step 2: Create Your Account and Log in Successfully

Mobility will launch and you will need to create your account via Google.

Upon updating the apps, we decided to utilize Google Sign-in to facilitate the participant sign-in and on-boarding process. However, we are also implementing the function that allows participants who do not have a Google Account to sign in, and it will be available shortly.

We do not store any personal information that users have with Google; therefore, your and participants' privacy will be protected.

Step 3: Using Mobility

Adjust the time intervals for collecting data as you like.

To Sign out, please locate the three-dot icon at the top right corner.

---For researchers---

To see the participants' data, please go to the dashboard and click *View* in the Participants page.
