

PAM-omh Android Apps Installation Guide

Step 1: Download and Install PAM

In the Google Play Store, search for *PAM-omh* and select the version of the application by small data lab

Accept the permissions, download, and install PAM.

Step 2: Create Your Account and Log in Successfully

PAM will launch and you will need to create your account via Google

Upon updating the apps, we decided to utilize Google Sign-in to facilitate the participant sign-in and on-boarding process. However, we are also implementing the function that allows participants who do not have a Google Account to sign in, and it will be available shortly

We do not store any personal information that users have with Google; therefore, your and participants' privacy will be protected

Step 3: Using PAM

Select an image that best captures your feelings. By tapping an image, your data will be sent to the server automatically.

To set up reminders, reload images, or sign out, please go to the three-dot icon at the top right corner of the screen
