

PAM-omh iOS Apps Installation Guide

Step 1: Download and install PAM

Open this document on your phone to download and install PAM using the provided links below

PAM <https://ohmage-omh.smalldata.io/ios/pam.html>

Once you click the link, a pop-up will show. Please select *Install* then go back to your phone's home screen. The PAM app icon should be displayed shortly

Click the ohmage app, and select *Trust* when another pop-up shows

Step 2: Create your Account

PAM will launch and you will need to create your account via Google

Upon updating the apps, we decided to utilize Google Sign-in to facilitate the participant sign-in and on-boarding process. However, we are also implementing the function that allows participants who do not have a Google Account to sign in, and it will be available shortly

We do not store any personal information that users have with Google; therefore, your and participants' privacy will be protected

Step 3: Log in Successfully

Accept Cornell Tech Small Data Lab to access your data

Select an image that best captures your feelings. By tapping an image, your data will be sent to the server automatically.

To set a daily reminder, please locate the button at the top right corner.
To reload images, please locate the button at the bottom of the screen.
